

IN PARTNERSHIP WITH PLYMOUTH UNIVERSITY

Plymouth University is a dynamic and ambitious, world-class institution built on a rich heritage dating back to 1862 and while it has grown in terms of size, reputation and impact, we remain true to our values of social inclusion with a strong sense of place and civic responsibility. We have embraced our leadership role in the city, region and beyond and are an engine of transformational change through education and innovation. We are committed to working through partnership in delivering on our mission.

Our vision

To be the enterprise university, promoting a bold, adventurous spirit and creativity in all that we do.

Our aim

To ensure each and every student gets the most out of their experience at Plymouth enabling everyone to reach their potential. This may take you in surprising directions...

Our core activities of **teaching** and **research** are enriched by the emphasis of **our people** on **discovery and innovation**. We are transforming lives through **education**, exerting a positive impact on our community through **economic growth and societal contribution**. Our academic staff are national leaders in teaching and learning, we have created no less than four new **world-class research centres** in the past 12 months, and have become the very **first** post 1992 university in the country to **establish its own medical and dental school**.

We embed **employability skills** and **opportunities** into our curriculum from day one, and also work with our students to **develop** their **life skills** so that they can build **careers** that add **real value** to the **economy** and **society** at large.
